

EQUIPMENT

CCX 1.5F & 2.5F

- Attractive compact design
- Low installation, running and maintenance cost
- Remote control for easy operation
- Different settings and running features
- Handles to easily carry the unit
- Wheeled units with integrated water tank for multiple applications
- Long uninterrupted running time without need of water refilling
- Low noise
- Environmentally friendly with no chemicals

CCX 1.5F & 2.5F

Smart mobile coolers

CCX series is developed to suit the cooling needs for various commercial areas such as small shops, offices, restaurants and smaller workshops. The CCX has a modern and stylish design with a fine display and it comes with nice features and different running programs. CCX grant a cost effective solution for open door commercial areas and in offices where the ventilation system is incapable to cool certain areas like conference rooms etc. The unit is very easy to move whenever it is needed.

The series is based on the natural principle of using water to regulate the temperature and refresh the air. The system creates a comfortable indoor climate with optimal combination of temperature and humidity. No chemicals are used.

An attractive exterior with wheels and integrated water tank makes it easy to move the unit around in your space. The water tank capacity provides up to 10 hours uninterrupted running time. Front outlet motor controlled diffusers make it easy to conduct the air in wished direction or letting the unit sweep horizontally. An exclusive centrifugal fan design minimizes the noise and reduces the disturbance if office environments.

Theoretical principle and how it works

The evaporative coolers use evaporative cooling pads as media. A system of water distribution and a pump keep the pad continuously wet. Inside the machine is a large axial fan which sucks

the air from the outside through the pad. When the air goes through the pad which is saturated the air gets cooler. The cool air is then forced by the fan into the premises.

Technical specifications

| Model CCX | | 1.5F | 2.5F |
|-----------------------------------|---------------------|-----------------|-----------------|
| Voltage | [V] | 230 VAC 1 phase | 230 VAC 1 phase |
| | [Hz] | 50 | 50 |
| Electrical power | [W] | 170 | 280 |
| Consumption | [A] | 0.75 | 0.75 |
| Water tank volume | [l] | 30 | 35 |
| Maximum airflow | [m ³ /h] | 1,500 | 2,500 |
| Evaporation efficiency | [%] | 85 | 85 |
| Noise level at 3 meters | [dB _A] | 50 | 54 |
| Dimensions H x W x D | [mm] | 1,115x540x410 | 1,170x620x410 |
| Weight (without water/with water) | [Kg] | 17/47 | 23/58 |
